

Star Grant Application | Harrison Elementary PTA

The Harrison Elementary PTA is excited to offer the Star Grant program again this year. We invite all Harrison staff, especially those who have not applied before, to apply for a Star Grant.

Proposals may be academic or co-curricular programs, activities or projects. This is an opportunity to be creative! The primary funding criteria will be the extent to which Harrison students will benefit from the proposed project. Requests could include bus fares or field trip admissions (please remember PTA does routinely pay for bus fare for one field trip per year per grade level – with no request needed).

All applications must be turned into Dr. Haynes for approval and submitted to the PTA mailbox by **September 25, 2019**. The grant committee will convene the first week in October to review the proposals and award funds to those projects with the greatest merit. We will seek to fund as many worthwhile projects as we can. This year, we have \$2,400 allocated toward Star Grant projects. Grant recipients may be asked to discuss and share the outcome of their projects at a PTA meeting. If funding is still available, we will have a second cycle in the spring of 2020.

Please note, this is a separate process than the Teacher Fund Reimbursement process.
